

# Specification Sheet

BM706

SEMI GLOSS MC80

BOOK PEEL

## FACE:

A white, woodfree, machine coated, mid-gloss paper. A multi-purpose label paper for high quality multicolour labels requiring good print definition and fine detail. This product, combined with a low tack, peelable adhesive, is primarily designed for labels to be used in circumstances where they can be easily removed without leaving an adhesive residue. Applications include books, magazines, greetings cards, cd and dvd cases.

Thickness 69 micron  $\pm 5\%$

Basic weight 80 gsm  $\pm 5\%$

## ADHESIVE:

A rubber based ultra low tack removable adhesive. With a relatively low adhesion level the adhesive allows clean and easy removal of label from most substrates.

Initial Tack Low

Final Adhesion Low

Min. App.Temp  $-20^{\circ}\text{C}$

Temp Range  $-40^{\circ}\text{C}$  to  $+80^{\circ}\text{C}$

UV Resistance Poor

Application to porous substrates or prolonged exposure to UV light may adversely affect clean removability.

## LINER:

A supercalendered siliconised honey glassine paper, with high mechanical resistance to tearing.

Thickness 56 micron  $\pm 5\%$

Basic Weight 61 gsm  $\pm 5\%$

## SHELF LIFE:

1 year when stored at  $22^{\circ}\text{C}$  / 50% RH

The above specification is based on information obtained from the original manufacturer and is offered in good faith in accordance with the companies conditions to determine fitness for use. No guarantee is offered or implied. It is the ultimate users responsibility to fully test the material and determine its suitability for the application intended. Measurements and test results are nominal. In accordance with a policy of continuous product improvement the manufacturer reserves the right to amend the specification without notice.
